Welcome! You are being admitted to our Therapeutic Community (TC) Residential Program. The 30-day program requires you to attend twenty (20) hours of service per week. In addition, you are also required to meet with your counselor once a month for an individual counseling session. Your family will also be asked to participate in Family Group held once per week and, possibly, to attend individual family sessions. **Family participation is mandatory.** Last, you will be required to attend treatment team meetings with the staff and your supervising officer; failure to participate could lead to revocation of your release.

Our History

Chemical addiction is a devastating disease involving body, mind, and spirit. The mission of Cheyenne Center, Inc. is to offer the highest quality professional and affordable substance abuse treatment with the highest regard and respect given to the client's growth, recovery, and individuality.

Cheyenne Center has been successfully treating this disease since 1992. The clinical staff is dedicated to reversing the progression of the compulsive craving, seeking and usage of alcohol and other drugs. Through the utilization of the latest advances in Addiction Medicine, individual and group therapies, cognitive restructuring, 12-step philosophies, and long term after-care planning, clients find that full recovery is more than just a possibility.

Cheyenne Center's main facility is in northeast Houston, as is the Outpatient facility. Cheyenne Center offers clients an environment conducive to the full recovery of body, mind, and spirit. The facility is fully licensed by the Texas Department of State Health Services.

For more information please visit our website at www.cheyennecenter.com.

Our Mission

Cheyenne Center aims to reduce substance abuse and related co-existing conditions in our communities, encourage healthier lifestyle related to at-risk public health behavior, and promote stronger families through multi-level prevention, education, interventions, and treatment. A multi-level approach includes age appropriateness, cultural relevancy, and language relevancy in an environment that is research and outcome based.

Our Services

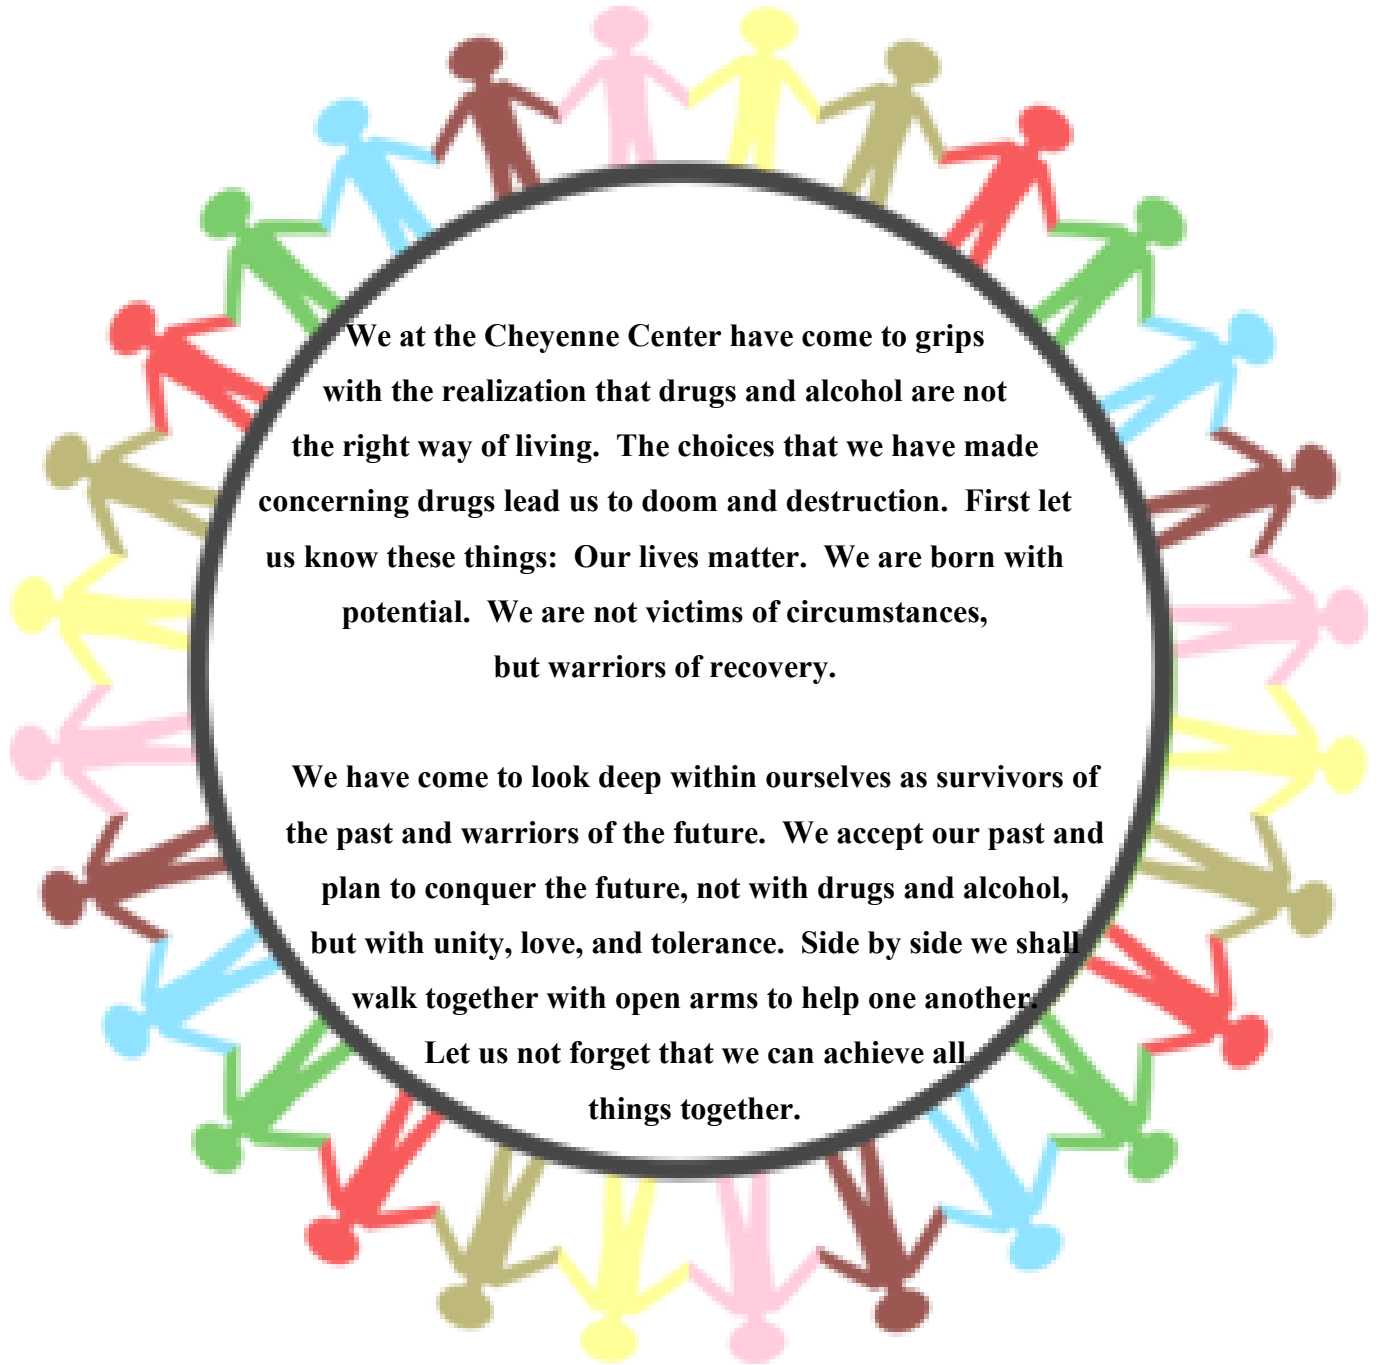

We provide outpatient and residential substance abuse treatment services to adults.

Residential and Outpatient Treatment Services

We offer residential and outpatient substance abuse services through federal, state and county contracts. We currently have a variety of funded criminal justice and non-criminal justice treatment programs.

If you or your family would like to participate in any of our programs in addition to the one you are currently being admitted to, please inform your counselor.

CHEYENNE CENTER PHILOSOPHY

Cheyenne Center Philosophy was written by Cheyenne Center clients in the late 90's.

PROGRAM CONTRACT

1. I will remain free of all mood-altering chemicals while I am in treatment. I will report all medication to my counselor, including prescription narcotics that are prescribed to me while in treatment.
2. I will attend at least three (3) AA, NA, or CA meetings per week and one Peer Support Group meeting per week for as long as I am in treatment.
3. I give permission for my counselor to contact my family, employer, Parole and/or Probation Officer, physician and/or any other significant person as necessary for my treatment. I will acknowledge this permission by signing the appropriate releases.
4. As a Supportive client, I will attend seven (7) hours of treatment and education groups every week. As an Intensive client, I will attend twenty (20) hours of treatment and education groups every week. I will be on time for all sessions as late entry into group is not permitted. I will refrain from smoking, eating, or chewing gum during groups.
5. I understand that group trust is based on confidentiality. Whatever is said in group does not go outside the group. A breach of confidentiality might disrupt the continuity of the group and/or have a negative effect on a fellow group member.
6. I understand that no financial transactions of any kind, including trading, borrowing or lending, are allowed between residents or employees of Cheyenne Center.
7. Should I decide to terminate treatment prematurely, I will communicate my decision in person to the group.
8. I understand and agree that I may be screened for drugs at any time.
9. I understand and agree that I may be searched at any time.
10. I understand and agree that my room may be searched at any time.

CLIENT RESPONSIBILITIES

PROVISION OF INFORMATION

A client has the responsibility to provide accurate and complete information about present complaints, past illnesses, hospitalizations, medications, and other matters relating to his health. He has the responsibility to report unexpected changes in his condition to his counselor. A client is responsible for consulting his counselor if he does not know what is expected of him.

COMPLIANCE WITH INSTRUCTIONS

A client is responsible for following the treatment plan recommended by his counselor. This includes following the instructions of staff and administrative personnel as they enforce community rules and regulations. The client is responsible for keeping appointments and for notifying his counselor or staff when he is unable to do so for any reason.

REFUSAL OF TREATMENT

Cheyenne Center is not responsible for the client if he refuses treatment or does not follow his counselor's instructions. This will result in discharge from the program.

COMMUNITY RULES AND REGULATIONS

The client is responsible for following community rules and regulations. If the client does not follow rules and regulations, the counselor or appropriate staff member will assign a therapeutic consequence.

All clients are responsible for being considerate of the rights of other clients and those of Cheyenne Center personnel. All clients are responsible for assisting in the control of noise. All clients are responsible for respecting property that does not belong to them.

COMMUNICATING WITH YOUR COUNSELOR / STAFF RELAY

The following procedure must take place when a client needs to speak with or communicate with his counselor if it is not a psych or medical emergency.

- 1) Complete a staff relay.
- 2) Place it in the box on your Counselor's door.
- 3) Wait to be called by your Counselor.
- 4) Violation of this process will result in a learning experience given by the Counselor (extra duty hours or essays)

FACILITY AND G.I. RESPONSIBILITIES

Due to the nature of the disease of Chemical Dependency, many clients have lost the ability to take responsibility for themselves. Therefore, each client will have the opportunity to be responsible for a household chore from the list provided by the service crew. If a client does not volunteer, he will be assigned a chore by the Service Crew Coordinator. It is the client's sole responsibility to see that his chore is carried out. There are no exceptions except for weather below 51°F.

All clients are required to participate in the facility G.I. to maintain a clean environment. Individual responsibilities may be traded with another client; however, responsibility for the chore lies with the client to whom it was originally assigned. If a trade is made, both clients must write and sign an agreement indicating the following:

1. Which responsibility is to be traded
2. Who is involved in the trade
3. What is the date of the trade
4. Which coordinator was informed of the trade
5. A copy of the agreement must be given to the Service Crew Coordinator

PHONE CALLS

Clients may utilize the desk phones in the Phone Room on either Saturday or Sunday between 8:30 am and 10 am. Clients may utilize the Conference Room Phone only when their Counselor schedules the call.

MAINTENANCE

In the event something needs to be replaced or repaired or inspected (for ex. bed bugs) within your room, please fill out a maintenance request form (forms and a drop box available near the big group room).

LAUNDRY

Washers and dryers are available on the property at no cost and all clients are responsible for their own laundry (including bedding). We will no longer allow liquid laundry detergent to be brought in. Clients can only bring **unopened** (sealed) packs of laundry pods only. Bedding is to be washed once a week. For Orientees (yellow badges) the laundry room is open at 5 a.m. For all other clients (other than yellow badges), the laundry room is open at 6 a.m. All laundry rooms are closed at 9:30 p.m. daily. **LAUNDRY ROOMS WILL BE LOCKED DURING ALL MEALTIMES. Otherwise, please read posted hours on laundry room doors.**

LINENS/BEDDING

Upon admission each client is issued clean linen which includes:

- One set of sheets One pillow and pillowcase
- Two bath-size towels Two washcloths
- One bedspread **or** One blanket

When you receive your linen, you will be asked to sign for it. It is your responsibility to ensure that you have received every item you sign for. Notify the Tech Assistant that you are missing item(s). The linen issue form will be updated once you receive the missing items. You may use your own personal linen if you wish; however, you are responsible for returning all linen belonging to Cheyenne Center. Linen is not to be lent, traded or given to another client. When linen is returned it will be marked off the linen issue sheet. Failure to return your linen may interfere with a successful discharge.

BED/BUNK ASSIGNMENTS

Each client is assigned a specific bunk. **Bunk A and C are top bunk beds. Bunk B and D are bottom bunk beds. Bunk A and Bunk B are ALWAYS the two beds closest to the window. Bunk C and Bunk D are ALWAYS the two beds closest to the bathroom.** Make sure you are in your assigned bunk or there will be consequences for being out of place. Clients are not to move from one bunk to another without proper authorization. **Beds must be properly made by 8:30 a.m. each morning.** Fitted sheet goes around the mattress. Top sheet goes over the fitted sheet tucked in at the foot of the bed and pulled to the head of the bed. Blanket or bedspread goes over the top sheet tucked in at the foot of the bed and pulled to the head of the bed. Then, all sides are tucked in TIGHT.

LIVING AREA/ROOM INSPECTION (**Food and Drinks ARE NOT ALLOWED in any client room**)

Each client is assigned living quarters which include a hanging area for clothes, bunk bed and dresser drawers for clothing. A space to secure personal items will be provided upon request as well as a combo lock. Rooms should not contain suitcases, bags, empty boxes, etc. Such items will be removed and stored until you discharge. Each room may have up to 2 chairs.

Each client who works should have an alarm clock (or be able to wake up on time without one). Each client is responsible for his own personal living space and for making his bed and keeping his room neat and clean. As a team, all roommates are responsible for the condition of the common areas (bathroom and living space), including sweeping and mopping all floors daily. Each room will undergo a daily room check by staff. A major clean-up of each room will take place daily. **If your bathtub or shower tile has resilient mildew (even after you have tried to clean it), please fill out a maintenance request to have the maintenance department address mildew as soon as possible. We will supply you with cleaning products for the bathroom. Bleach is not allowed. Bathroom doors must be left open when not in use to prevent the growth of mildew, germs and fungus when the humidity is high. During all times, all A/C units must remain at 73 degrees.** If you need a box fan, fill out a maintenance request.

Any client who fails the room inspection will be given a consequence by his counselor. Please review the Cheyenne Center Awareness Form so you have an idea of what items will be inspected. Occupied rooms will remain unlocked during the day for use of the restrooms. **All blinds must stay raised (raised to the height of the room number on the door) from 8 a.m. - 5 p.m daily.** If any item in your room is not working properly, (i.e., miniblinds, toilet, bathtub, sink, beds, mattresses), please fill out (in writing) a maintenance request form. Forms can be found near the maintenance shop, and in the hallway near the big group room.

IRONS

Clients are allowed to bring their personal irons to Cheyenne Center, Inc., but must allow them to be kept in Tech Station #3 for safety reasons. A label with the clients' name will be placed on it for the purpose of identification. Clients will be allowed to check out Community irons (when available) for a period no longer than two (2) hours. Please return the iron within the two (2) hour time limit. We require your TDCJ ID or CHEYENNE CENTER BADGE be turned into the Tech Station at the time of check out.

HAIR CUTTING / ELECTRIC CLIPPERS OR ELECTRIC SHAVERS

Clippers and Shavers will be kept in the tech supervisor's office which may be signed out by only you and only during personal chore time as it appears on his client schedule. Clients can ONLY CUT HAIR IN ROOM 136. Clients MUST sweep up and mop up Room 136 when done.

JOB SEARCH / EMPLOYMENT (when allowed) (PLEASE ALSO READ "APPROVED TIME TO SIGN OUT" section in the "SIGN-IN/SIGN-OUT PROCEDURE" section in this handbook.)

We allow clients to wear beards up to ½ inch long. While obtaining employment and resuming responsibilities are a priority, each client must understand that recovery comes first. Work is a major commitment of time and energy. Obtaining employment is important, but it is more important to obtain a sponsor, establish a home group, and build on a sober support system.

A client must be clear about his priorities and must move toward completing them before he can return to work. Clients must consult with their Counselors before beginning a job search. When your Counselor feels you are ready, you will be given a job search verification form to fill out for each day that you are looking for work. It is your responsibility to turn paperwork into your Counselor on a weekly basis.

There is no job search or WorkSource on Fridays unless you have a "job interview" with a company and have your Activity listed as "Interview". Clients must list at least three places for complete job search approval. **Proper "job search", "worksource" attire: Collared shirt tucked in, pants not sagging, belt (if available) and shoes. If you are not properly dressed or write "Job Search" instead of "Interview" in the Activity column, we WILL NOT call your Counselor for approval. You must have your job search form at the time you sign out for job search or job interview or worksource.** Clients will be allowed travel time to and from work one (1) hour if traveling by clients' personal vehicle, and two (2) hours travel time if client is traveling by bus.

25% ASSESSMENT When you do acquire work, you will be required to furnish your pay stub and submit a budget which will be approved by your Counselor. Money can be a trigger for your disease. All parole clients must turn in a copy of your pay stub along with 25% of your **gross earnings** each week as required by the Texas Department of Criminal Justice. This money is forwarded to TDCJ and used to defray the cost of your treatment. No amount less than 25% of your gross earnings will be accepted.

You will be held accountable if you fail to pay assessment fees. A disciplinary team meeting will be held with the client's parole officer when he is in non-compliance of paying his assessment fees and he will be placed on total freeze to the facility. 25% assessments are only accepted in Tech Station #3 by cash or money order. The money order should be a U.S. money order payable to "Cheyenne Center" for the correct amount of the assessment. A receipt should be given to the Parolee with a notation of the **money order number** written on receipt*

CLIENT SAVINGS Cheyenne Center maintains a bank account for client savings. It is recommended that clients save a minimum of \$300 before discharge. Fill out the Client Certificate and Savings Form.

6. Once entering back on property, clients must turn in their vehicle keys to the Count Room before processing to room.
7. **Clients are not allowed to transport another client in an approved vehicle at any time. Cheyenne Center is not liable if a client transports another client illegally.**

QUIET HOURS

Evening quiet hours and lights out begin according to your client schedule for lights out/feet off floor. At that time clients must cease all activities that could be disturbing to others. **Clients are to be in their rooms with lights out as per their Schedule and can be held accountable for non-compliance.**

VALUABLES/MONEY

Clients are urged to leave their valuables at home. Cheyenne Center assumes no responsibility or liability for personal belongings. Cheyenne Center has a bank account specifically for client funds. Money should be turned into the designated tech station and you will be given a receipt. After giving your money to the tech on duty please wait until you are given a receipt and have witnessed the tech placing the money envelope into the safe. If you need a lock to secure your belongings, fill out a maintenance request.

You may not have over sixty dollars (\$60) in your possession at any time.

Cheyenne Center, Inc. is not responsible for loss or theft of any personal items at any time.

MEDICATION

Cheyenne Center monitors clients' self-administration of prescribed medication at the following times:

4:00 am – Workers First, then followed by Orientees Only; 5:00 am – Bldg A Only; 5:30 am – Bldg B Only (Med Call will cease by 7 am). 12:30 pm to 1:00 pm – Bldg A and Bldg B; 5:30 pm to 6:00 pm – Bldg A and Bldg B; 7:30 pm to 8:00 pm – Orientees Only; 9:00 pm to 10:00 pm – Bldg A and Bldg B (Med Call will cease by 10 pm).

It is the responsibility of the client to know the designated times for medication call and to be present to take medication. It is the responsibility of staff to conduct medication call as scheduled. If you are going to be off property at the scheduled time for medication, it is your responsibility to request your medication before you leave the property. Upon receiving the request, medication will be packaged in a brown envelope marked "To-Go" meds and documented in the client medication records.

The medication monitor never dispenses medication to the client. He must be allowed to remove the medication from the container himself above the counter with his hands and bottle in full sight of the medication tech. The medication monitor must observe as to ensure he only takes from the bottle the amount prescribed. The medication monitor must physically watch. Clients must swallow the medication in the presence of the med tech who is "watching". This procedure is done to ensure that Clients are not holding ("checking") their medication to

Cheyenne Center, Inc.

CONFIDENTIAL

stockpile and take at a later time. The medication monitor will request that the client open his mouth and stick out his tongue while the med tech looks into the mouth in an effort to ensure that he has swallowed the medication.

It is very important that you take all medication as prescribed by your physician. If for any reason you decline to take your medication as prescribed (for instance: instructions say the medication is to be taken three times per day, but you take it only once a day) or if you refuse to take prescribed medication at all you will be required to sign a Medication Refusal Form. Refusing to take medication as prescribed by your physician may have dire consequences to your health and Cheyenne Center will not be responsible in such cases. **Failure to take medication as prescribed will result in Disciplinary Treatment Team meeting with possible recommendation for discharge.**

There are rare situations in which a client is permitted to have his prescription with him. In this case there should be a **KOP (keep on person)** sticker on the container. Items that are eligible include: breathing apparatus, creams, foot powders, inhalers, medicated shampoo, nitroglycerin, and topical ointments. **If you need over the counter (OTC) medication such as an aspirin, please do not come to the medication room during a scheduled time notated above. This time is reserved for clients who are taking prescribed medication. You may come for OTC meds during your break or free time.**

Dispensing, lending, or sharing medication of any kind between clients is not allowed.

MEDICATION (OVER THE COUNTER)

A DROP OFF FORM MUST BE PRESENT AT THE TIME that over-the-counter item(s) are brought to the facility. If a drop off form is not present, the over-the-counter items will be confiscated.

Virtue Encounter	Encounter group in which individual's positive characteristics are brought to attention.

TPR Investigation Process

The SOD and COD will get the TPR's out of the box and count them. A panel will first be run to find out if the client owns the ticket written on him. The Senior Coordinator will insure there is a COD Monday through Friday.

The client will be called before the investigation panel which consists of the SOD and COD. The client will stand in front of the panel with his hands behind his back. A peer or staff will read the ticket to him stating the negative behavior and the date and time the behavior was portrayed. The client will own or disown the behavior and he will write this on the back of the ticket. If the client owns the behavior the ticket will be placed in the "to run" folder. If the client disowns the behavior, he will need to have two witnesses and the ticket will be placed in a "to be investigated" folder.

Upper structure and counselors will investigate after all tickets are owned or disowned. The investigation consists of questioning the witnesses of both parties. If a disowned ticket is found to be valid the ticket will be placed in the "to run" folder. If the ticket is found to be invalid it will be deleted from the client's record.

The counselor can send an invalid ticket, or a ticket written on an encounter behavior to encounter group. A counselor cannot discard or disregard a ticket. During the investigation process all clients who do not own their ticket must stay in the room until all witnesses are called in. The client being booked needs two witnesses for the investigation. The person writing the ticket needs two witnesses. The person writing the ticket will remain anonymous.

Governing Rules: TDCJ Contract

Policy: Cheyenne Center, Inc. insures client and community health, safety and welfare by closely monitoring the clients' physical locations, both in the facility and in the community.

Procedure:

Cheyenne Center, Inc. ensures client and community health, safety and welfare by closely monitoring the clients' physical locations, both in the facility and in the community. Additionally, Cheyenne Center, Inc. maintains close supervision and performs location checks while clients are in the community. We also maintain close supervision of visitors to the facility. Cheyenne Center, Inc. has established written policies and procedures regarding ingress and egress to the facility and provides this to clients during orientation.

There is a security fence with two gates (one locked except during emergencies) surrounding the entire facility except for the driveway to the parking lot. The driveway is secured by a chained gate from curfew to morning. The following client monitoring procedures are in place:

- Clients are monitored by a sign-in/sign-out log maintained at the monitor's front desk.
- Clients must have a pass signed by their counselor in order to leave the facility for any trip but job search or work.
- Clients on job search must have a job search sheet filled out with the location and phone number of their destination.
- Clients sign out on a logbook which reflects their destination, complete with address and phone number and expected time of return to the facility.
- Clients having visitors must have approval by their counselor before visitors can enter the facility.
- All visitors must sign in and out in a Visitor Log kept in the main office.

Cheyenne Center, Inc. utilizes a written pass policy which is in compliance with TDCJ's established procedures. Clients are advised of this policy during orientation. Clients are allowed to receive overnight passes with the approval of the treatment team which will have at least one representative from the Department or Community Supervision and Corrections Department.

Clients of Cheyenne Center, Inc. are allowed passes (48 hours or less) and furloughs (48 hours or less) under certain conditions and as long as the following conditions are met:

- After the successful completion of the Orientation Phase, and with a counselor's approval, the client is eligible for a Daily Activity Pass which does not exceed eight (8) hours.
- All clients will submit a urine sample upon return from pass/furlough. Each client is responsible for monitoring his own behavior on pass/furlough and should return to Cheyenne Center, Inc. immediately if he encounters problems during the time away from the facility.
- Furloughs will be allowed only in the case of a death or serious illness in the client's immediate family which would require the client to travel out of town or out of state. Bereavement furloughs will be approved on a case-by-case basis by the Treatment Team. Criminal Justice clients will not be furloughed out of town or state without a Travel Permit issued by their Parole/Probation Officer. The COO will notify the appropriate officials when a client is furloughed.

- Approved educational classes

Cheyenne Center, Inc. periodically verifies each client's location as indicated on the sign-in/sign-out sheet. Locations are verified both on a random basis and for cause by counselors and desk staff. Verification includes, but is not limited to, job search activity and client pass location.

Cheyenne Center, Inc. uses mandatory sign-in/sign-out procedures which include:

- The times the client leaves and returns to the facility
- The client's destination, including name, address, and telephone number of the destination, and

Emergency Procedures For Evacuation

Signage inside all building exits provides evacuation assembly point locations (where to assemble if you must evacuate the building).

Prepare:

Determine in advance the nearest exit from your ROOM and the route you will follow to reach that exit in an emergency. Establish an alternate route to be used in the event your route is blocked or unsafe. (See facility map on page 56)

During Evacuation:

- If time and conditions permit, secure your ROOM and take with you important personal items such as wallet, glasses, etc.
- Follow instructions from STAFF.
- Check doors for heat before opening. (Do not open door if hot.)
- Walk — DO NOT RUN. Do not push or crowd.
- Keep noise to a minimum so you can hear emergency instructions.
- Use handrails in stairwells; stay to the right.
- Assist people with disabilities (see below).
- Move to your evacuation assembly point unless otherwise instructed.

If relocating outside the building:

- Move quickly away from the building.
- Watch for falling glass and other debris.
- Stay with STAFF who will keep track of employees and clients from your area.
- **If you have relocated away from the building, DO NOT RETURN until notified that it is safe to do so.**

Evacuation of Clients/Clients

- In the event of an emergency, the person in charge shall immediately contact the Chief Executive Officer or designee.
- Call 9-1-1 to report the situation.
- Once the Chief Executive Officer or designee arrives and determines that the situation requires evacuation, all facility employees on property shall report to their supervisor and begin to evacuate the clients to safety.
- A command center shall be established per the Chief Executive Officer's direction. This should be in a convenient location out of the line of danger.
- The Chief Executive Officer, or highest-ranking person at scene, shall become the "Commander" in order to direct people to areas needing assistance.
- Alternate placement for clients must be arranged. The Chief Executive Officer, or highest-ranking person at scene, shall designate someone to coordinate a shelter.
- The Chief Executive Officer, or highest-ranking person on scene, shall assign a second person to coordinate transportation.
- Once a shelter is arranged, the Commander shall designate a meeting spot outside of the facility. Clients shall be evacuated from the building in an orderly fashion.
- All departmental personnel shall report to the designated location with the supplies they are assigned to gather.
- **The Program Director shall be responsible for tagging and identifying all clients upon evacuation. They shall also be responsible for ensuring that the clients' medical records are transported with the client.**
- Direct care staff and counselors will be responsible for caring for clients. The MED TECH ON DUTY shall be responsible for taking the medication to the meeting spot.
- Direct care personnel will be responsible for gathering all linens and supplies needed for client care. If possible, attempts should be made to gather client clothing also.
- Dietary personnel will be responsible for gathering food and dietary supplies.
- **The Counselors will be responsible for contacting family members to notify them of the disaster and where clients are being transported.**
- The counselors may also have to reassure and supervise family members and on-lookers that may arrive on the scene.

- **The senior resident shall be responsible for the facility pets.**
- The Chief Operations Officer shall gather all departmental employee schedules and the employee roster, as well as other pertinent business office supplies and records.
- The Tech Assistant Supervisor, or designated person, shall check all rooms before leaving the grounds. An "X" should be marked on each door to verify that the room is empty.
- All available staff members shall assist with a last walk through of the building to ensure that no clients or staff members are left behind.
- Once everyone has been evacuated and all supplies gathered, boarding of clients and supplies for relocation shall begin in an orderly fashion.
- **The Program Director shall be responsible for keeping an official roster with names of clients, staff, board members, and volunteers present at the time of disaster and during the evacuation.**
- Information to be recorded shall include name of client and next of kin/responsible party; shelter transferred to and person accompanying client; medications, med sheet, and chart sent with client to location of transfer.

Evacuation of Non-Ambulatory Disabled Persons

- Evacuation may not be necessary or advisable. Many stairwells are designed to provide temporary protection from fire or other danger. An able-bodied volunteer should stay with a wheelchair user in the platform area of the stairwell while a second person notifies emergency personnel or paramedics of the exact location of the wheelchair user.
- If immediate evacuation is necessary, be aware of the following considerations:
- Wheelchairs have many moving parts; some are not designed to withstand stress or lifting.
- You may need to remove the chair batteries. Life support equipment may be attached.
- In a life-threatening emergency it may be necessary to remove an individual from their wheelchair. Lifting a person with minimal ability to move may be dangerous.
- Wheelchairs should not be used to descend stairwells, if at all possible.
- Non-ambulatory persons may have respiratory complications. Remove them from smoke or fumes immediately and determine their needs and preferences.
- Always consult with the person in the chair regarding how best to assist them.
- The number of people necessary for assistance.
- Ways of being removed from the wheelchair.
- Whether to extend or move extremities when lifting because of pain, catheter leg bags, plasticity, braces, etc.
- Whether to carry forward or backward on a flight of stairs.
- Whether a seat cushion or pad should be brought along if the wheelchair is being left behind.
- In lieu of a wheelchair, does the person prefer a stretcher, chair with cushion/pad, or car seat?
- Is paramedic assistance necessary?

Visually Impaired Persons:

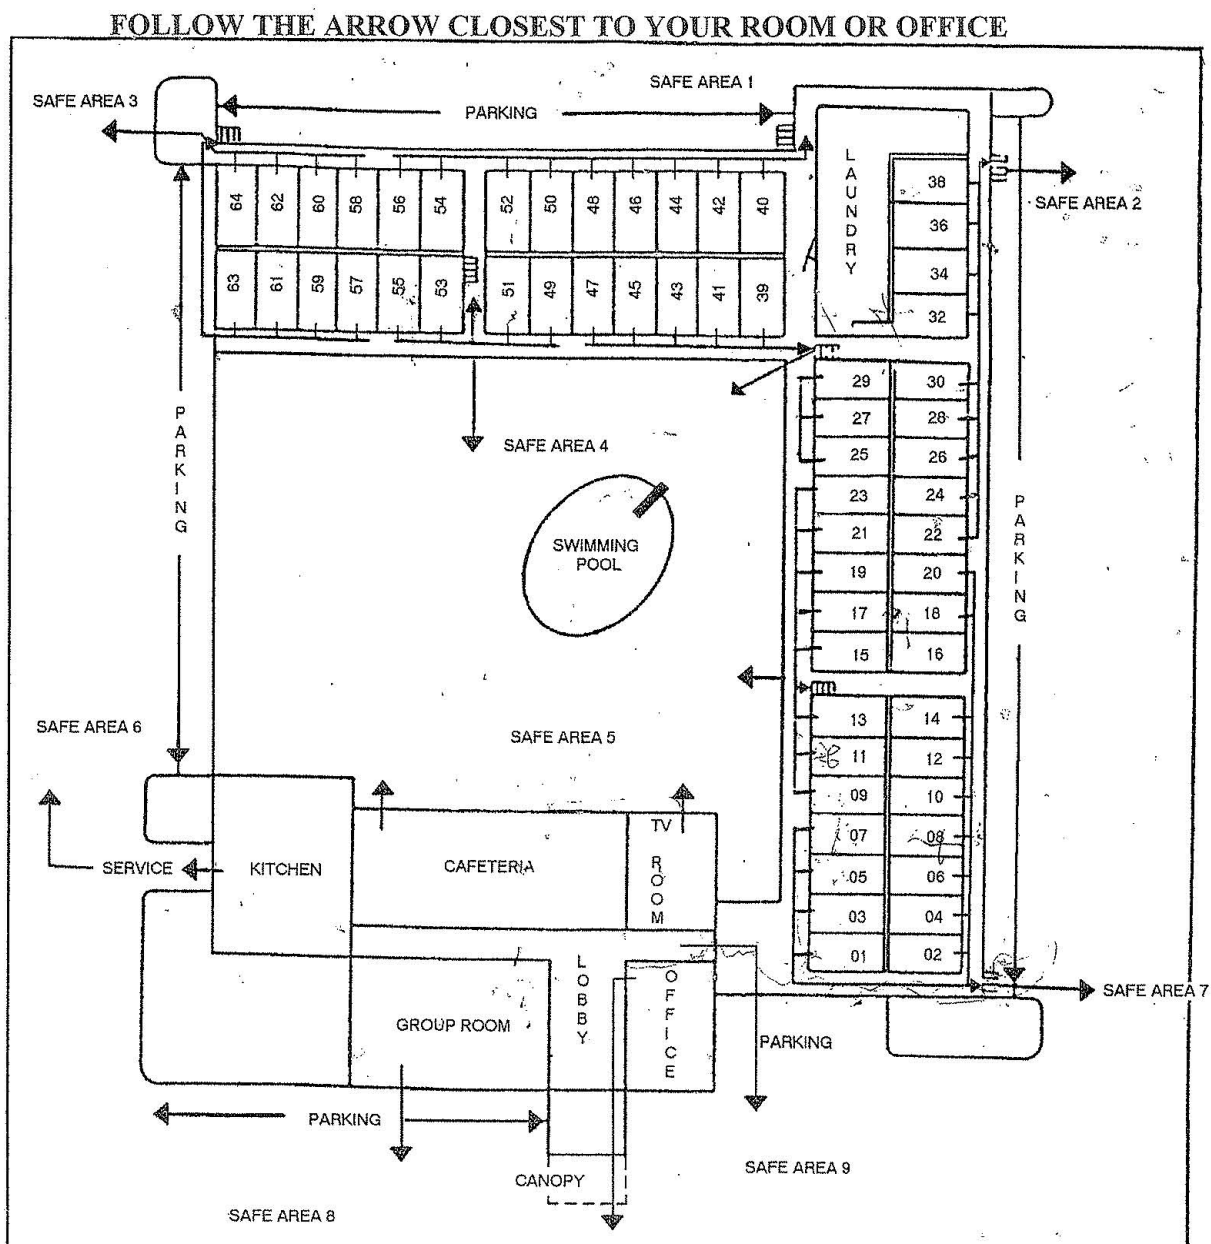

- Most visually impaired persons will be familiar with their immediate work area. In an emergency describe the nature of the emergency and offer to act as a "sighted guide" — offer your elbow and escort him/her to a safe place.
- As you walk, describe where you are and advise of any obstacles.
- When you have reached safety, orient the person to where you are and ask if further assistance is needed.

Hearing Impaired Persons:

- Because persons with impaired hearing may not perceive emergency alarms, an alternative warning technique is required. Two methods of warning:
- Write a note describing the emergency and the nearest evacuation route. ("Fire. Go out rear door to the right and down, NOW!")
- Turn the light switch off and on to gain attention, and then indicate through gestures what is happening and what to do.

"Shelter in Place"

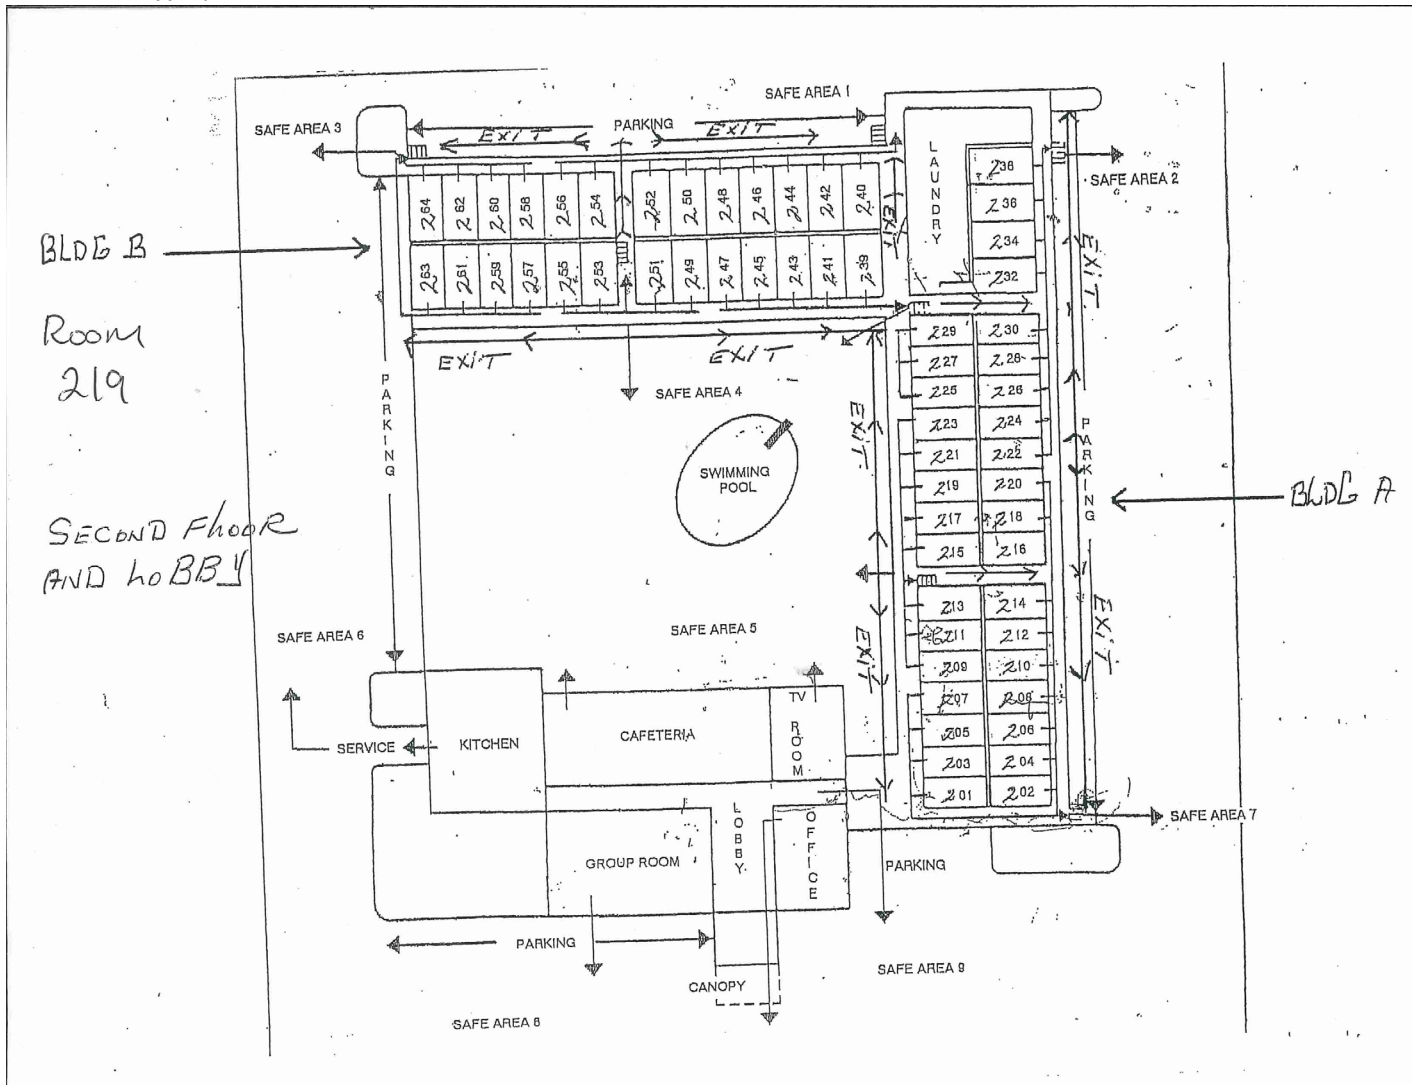

- During certain emergency situations, particularly chemical, biological, or radioactive material releases and some weather emergencies, you may be advised to "shelter in place" rather than evacuate the building.
- Stay inside the building (or go indoors as quickly as possible).
- Quickly locate supplies you may need such as food, water, radio, etc.
- If possible, go a room or corridor where there are no windows and few doors.
- If there is time, shut and lock all windows and doors. (Locking them may provide a tighter seal against chemicals).
- Push a wet towel up against the crack between the door and the floor to seal it.
- In the event of a chemical release, go to an above-ground level of the building; some chemicals are heavier than air and may seep into basements even if the windows are closed.
- Turn off the heat, fans, air conditioning or ventilation system, if you have local controls for these systems.
- Drink bottled, stored water, not water from the tap.
- If possible, check for additional information via radio or television for further details.
- Do not call 911 unless you are reporting a life-threatening situation.

When the "all clear" is announced:

- Open windows and doors.
- Turn on heating, air conditioning or ventilation system.
- Go outside and wait until the building has been vented.

What Is PREA?

In September of 2003, the *Prison Rape Elimination Act* (PREA) was signed into law. PREA is the first national law to be passed addressing sexual abuse behind bars. Some of the components of PREA include: establishing a zero-tolerance standard for the incidence of rape in prisons in the United States; making the prevention of prison rape a top priority in each prison system; and developing and implementing national standards for the detection, prevention, reduction, and punishment of prison rape.

Who Is The PREA Ombudsman?

The PREA ombudsman was established by the 80th Legislature in 2007 (Texas Government Code § 501, Subchapter F), and is appointed by the Texas Board of Criminal Justice (TBCJ). The PREA ombudsman reports directly to the chairman of the TBCJ, and is responsible for and authorized to coordinate and oversee the Texas Department of Criminal Justice's (TDCJ) efforts to eliminate sexual abuse and sexual harassment in correctional facilities and respond to complaints or inquiries related to PREA allegations. PREA allegations include offender-on-offender or staff-on-offender sexual abuse and sexual harassment, retaliation for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to a PREA incident in TDCJ correctional facilities.

Reporting PREA Allegations

Due to the serious nature of sexual abuse and sexual harassment, anyone with knowledge of a PREA incident that occurred in a TDCJ correctional facility is encouraged to immediately report the allegation to the unit administration, PREA ombudsman, or Office of the Inspector General (OIG).

Any offender may privately and confidentially contact the PREA ombudsman in writing regarding a PREA allegation and remain anonymous upon request. Any offender reporting a PREA allegation shall **NOT** be subjected to retaliation for reporting such an act.

Providing Helpful Information

Family and friends may also report PREA allegations on your behalf. Individuals reporting PREA allegations are encouraged to provide the following information:

- Name of the unit where the victim is assigned;
- Date and time the incident occurred;
- Name and TDCJ number of the offender victim;
- Name and TDCJ number of the alleged assailant and witnesses;
- A brief summary of the allegation; and
- Copies of any correspondence that could assist in the investigation.

¿Quién es El PREA Ombudsman?

BEAT THE HEAT!

Heat related illnesses can quickly progress from heat cramps, to heat exhaustion, to heat stroke!

Heat Cramps

Often the first sign that your body cannot handle the heat. Muscle cramps usually develop following strenuous exercise or work, and often affect the abdomen, arms, and calves. Muscle cramps are usually brief and intermittent (come and go), and may be severe or mild. You should ask to go to the medical department for treatment if you are experiencing muscle cramps.

Heat Exhaustion

This is the most common form of heat illness, and can come on gradually (possibly over several days). Symptoms may include weakness, anxiety, fatigue, dizziness, thirst, headache, nausea, profuse perspiration (sweating), rapid heartbeat, rapid breathing, loss of coordination and possible confusion. If you are experiencing any of these symptoms, it is very important to seek medical attention right away!

Heat Stroke

Medical Emergency! The body's systems for cooling itself are shutting down. Look for diminished or absent perspiration (sweating); hot, dry and flushed skin; increased body temperatures, delirium, convulsions, seizures; rapid pulse, weakness; headache, mental confusion, dizziness; extreme fatigue; nausea, vomiting; incoherent speech progressing to a coma, or unconsciousness. Death is possible if left untreated.

TIPS FOR AVOIDING HEAT RELATED ILLNESS:

- Report any and all symptoms of heat related illness to a staff member immediately!
- Drink plenty of fluids, even if you are not thirsty. When you are well-hydrated your urine should be very light or clear. This is especially important when you're active.
- Take frequent breaks. Rest in the shade, or request access to a respite area.
- Look out for one another.
- If you have a health condition and/or taking a medication that may make you more susceptible to heat, inform a staff member immediately!

REFRESH. REHYDRATE. REPLENISH.

COLD WEATHER ILLNESS PREVENTION

Hypothermia is a potentially dangerous drop in body temperature, usually caused by prolonged exposure to cold temperatures.

Hypothermia Category 1

Symptoms may include loss of body heat, shivering, lack of interest or concern, difficulty speaking, forgetfulness, mild unsteadiness in balance or walking, loss of manual dexterity, and lips turning blue. Seek medical attention right away if you are experiencing any of these symptoms!

Hypothermia Category 2

Medical Emergency! When your body reaches category 2, shivering stops. Other symptoms may include exhaustion, drowsiness, confusion, sudden collapse, slow pulse and breathing, dilated pupils, and cardiac arrest if left untreated. Seek medical attention immediately if you or someone around you is experiencing any of these symptoms!

Hypothermia Category 3

Medical Emergency! Death is possible if left untreated! Individuals experiencing category 3 hypothermia may be comatose, with no palpable pulse, and no visual respiration.

TIPS FOR AVOIDING COLD RELATED ILLNESS:

- Report any and all symptoms of cold related illness to a staff member immediately!
- Dress appropriately when working in extreme cold conditions. This may include thermal underwear, insulated jackets, cotton or leather gloves, insulated hoods, work shoes, and socks. Appropriate clothing will be issued to you even when the index indicates little danger of exposure injury.
- Drink warm, sweet fluids.
- Move your extremities often to promote blood circulation.
- Look out for one another!

Remember, you may be at a higher risk for a cold related illness if you are newly assigned to a job, elderly, exposed to below freezing temperatures for an extended period of time without adequate clothing, or wet when exposed to cold weather. If you feel you may be more susceptible to cold, inform a staff member immediately!
